Washington, DC

Weekly Coal Production

Production for Week Ended:
July 23, 1988

Preface

The *Weekly Coal Production (WCP)* provides weekly production estimates of U.S. coal by State, as well as supplementary data which are usually published twice a month. Supplement 1 includes monthly and annual U.S. level data on coal production, consumption, and stocks. This week's Supplement 2 contains detailed monthly data covering coal production, electric utility coal consumption, stocks, and receipts (quantity and price); and coal imports and exports.

This publication is prepared by the Coal Division; Office of Coal, Nuclear, Electric and Alternate Fuels; Energy Information Administration (EIA) to fulfill its data collection and dissemination responsibilities as

specified in the Federal Energy Administration Act of 1974 (P.L. 93-275) as amended. *Weekly Coal Production* is intended for use by industry, press, State and local governments, and consumers. Other publications that may be of interest are the quarterly *Coal Distribution Report*, the *Quarterly Coal Report*, *Coal Production 1986*, and *Coal Data: A Reference*.

This publication was prepared by John Moens under the direction of Noel C. Balthasar, Chief, Data Systems Branch. *Questions on energy statistics should be directed to the National Energy Information Center (NEIC) at (202)586-8800.*

Summary

U.S. coal production in the week ended July 23, 1988, as estimated by the Energy Information Administration, totaled about 18 million tons, slightly higher than production in the previous week.¹ Coal production east of the Mississippi rose about 2.7 percent (0.3 million tons) while production west of the Mississippi fell 2.9 percent (0.2 million tons). U.S. coal production for June 1988 was 4.7 percent higher (3.5 million tons) than the previous month (Table 3). Most of the increase in production occurred west of the Mississippi, where production rose 2.6 million tons or 9.7 percent above May 1988 levels. Wyoming alone accounted for 1.5 million tons of the increase.

U.S. coal production for June 1988 was 1.2 percent higher than June 1987 levels. Production east of the Mississippi in June 1988 was down 0.8 million tons or 1.7 percent and west of the Mississippi was up by 1.8 million tons or 6.3 percent, compared to June 1987 levels. Coal production was lower in June 1988 versus June 1987 for all States east of the Mississippi with the exception of Illinois, Pennsylvania, Tennessee, and Virginia. This lower level of production is partially attributable to the UMW's vacation period falling earlier in the month in 1988 (June 25) versus 1987 (June 27). Most of the increased production west of the Mississippi in June 1988 over June 1987 levels occurred in Wyoming (1.8 million tons) and Montana (0.7 million tons).

Coal production figures for January through March 1988 have been revised (Tables 3 and 4). June 1988 year-to-date production was 5.8 percent higher (25.7 million tons) than the comparable period of 1987, with the major increase occurring west of the Mississippi,

particularly in Montana (5.8 million tons) and Wyoming (9.5 million tons). Wyoming coal production was higher for the June 1988 year-to-date period primarily because of increased utility coal demand from Texas, Missouri and Wyoming. Montana's production has increased due to the new coal severance tax incentives, based on increased production, which went into effect last year. East of the Mississippi, June 1988 year-to-date production rose 6.2 million tons over the comparable period for 1987 with Virginia and West Virginia accounting for 88 percent of the increase.

This report contains data on electric utility coal receipts and prices for April 1988 in addition to electric utility coal consumption and stocks for May 1988. Also included are U.S. coal and coke exports and imports for May 1988.

Some of the highlights of this data are:

- The 1988 year-to-date (January through April) coal receipts at electric utilities were up 3.2 percent (7.1 million tons) over 1987 levels for this period.
- Coal stocks at electric utility plants, as of May 31, 1988, were slightly higher (0.1 percent) than May 31, 1987 levels.
- Coal consumption at electric utility plants from January through May 1988 rose 6.9 percent above the comparable 1987 period.
- U.S. coal exports for January through May 1988 were 12.1 percent higher than 1987 levels for that period.

¹Million tons represents million short tons throughout this summary.

Energy Information Administration Electronic Publication System(EPUB)

User Instructions

Selected energy data reports can be obtained electronically from the Energy Information Administration (EIA) Computer Facility. Public access to these machine readable statistics is possible by dialing (202) 586-8658 for 300 baud or 1200 baud line speeds. Communications are asynchronous and require a standard ASCII-type terminal. There is no charge for the service. Although there is no required password, you will be requested to use your telephone number as a user identifier. This service is available from 8 a.m. to 11 p.m. weekdays and 10 a.m. to 6 p.m. on weekends and most holidays. The Weekly Coal Production report is normally updated by 2 p.m. on Friday of each week. Allow one or two additional workdays in weeks containing holidays. Questions or comments may be directed to Hans Becker at (202)586-6874.

Access Instructions:

1. DIAL (202) 586-8658
2. HIT RETURN (CARRIAGE RETURN) TWO OR THREE TIMES UNTIL THE EPUB BANNER APPEARS

WELCOME TO THE
ENERGY INFORMATION ADMINISTRATION
ELECTRONIC PUBLICATION SYSTEM

3. SELECT THE STATISTICS YOU WISH FROM THE MENU

THE FOLLOWING REPORTS ARE AVAILABLE:
WPSR - WEEKLY PETROLEUM STATUS REPORT
PSMR - PETROLEUM SUPPLY MONTHLY
STKS - PSM STATE STOCKS TABLE
WCPR - WEEKLY COAL PRODUCTION REPORT
PLEASE ENTER THE DESIRED REPORT ID...WCPR

4. ENTER YOUR 10 DIGIT PHONE NUMBER

\$WP1081 LOGON IN PROGRESS AT 14:23:22 ON JUNE 6, 1986
PLEASE ENTER YOUR PHONE NUMBER...

5. YOU WILL THEN SEE A BANNER WHICH SHOWS THE REPORT YOU HAVE SELECTED AND PAUSES TO ALLOW AMPLE TIME TO GET READY TO RECEIVE OUTPUT OR TURN PRINTER ON

YOU HAVE SELECTED WEEKLY COAL PRODUCTION REPORTS

(PRINTING WILL BEGIN IN 20 SECONDS)

Note: Users who experience problems when first attempting to logon should check their terminal switch settings for the following:

- 7 Data Bits
- 1 Stop Bit
- Even Parity

This publication is available from the Superintendent of Documents, U.S. Government Printing Office (GPO). Ordering information and purchase of this and other Energy Information Administration (EIA) publications may be obtained from the GPO or the EIA's National Energy Information Center (NEIC). Questions on energy statistics should be directed to the NEIC. Addresses and telephone numbers appear below.

National Energy Information Center, EI-231
